Finer words have truly never been spoken...
Shit's Pipe Journey

**Shitcoin's Bread and Butter ToiletPaper Roll Section:**

**Born** as our **Baby Jesus** on Christmas Eve '21. **Shitcoin** has been designed on the **Binance Shit Chain** to **Encourage Investors to Buy and Hold** for **longer periods of time**, only to be **sold when exchanging STC for Real-World And Internet Shit.** There are a **total of 21 million (21,000,000) Shitcoins released** in the world **to buy shit with**, and every **transaction sends shit to babyshit holders...** (does shit burn?)

1. **Owner Gets Paid to Continue Developing and Pay for Shit.**
2. **Shit is Sent to BBYSTC Holders. Rewarded**
3. **Shit Sent to the Liquidity Pool. So people can buy and sell Shitcoin.**

With a **tight budget**, **Shit-Toshi** had to get **ShApTeD a few times** to **corRECTly release shitcoin. He learned that buDget ing can make or break a Project. He tweaked key transaction fee calculations** to ensure the **success of the code.**
**WHEN NATURE CALLS**

**PRESALE & LAUNCH: CHRISTMAS, 2021**

1. In an effort to keep shitcoin holders, shit, as decentralized, the launch of shitcoin was kept under a $1M market cap. The toilet bust protection stops any wallet from holding over 4.20% of shitcoin's total supply: (882,000 STC MAX). (what a fucken wiz)

2. **PRESALE WILL OCCUR ON PINKSALE** before the official launch, where investors can connect their wallet and redeem their tokens. Shortly after which, shitcoin will be available for trade on decentralized financial exchanges (DEX) that support the PancakeSwap v2 liquidity router.

---

**Note:** In the case of shitcoin not being able to reach the presale goal, investors can navigate to the pinksale page to process a recollection of their investments. Bla bla bla — presale sold out!
As the **COMMUNITY AND PROJECT GROWS**, Shit-TOCOI hereby strives to keep a vision of trusty and SAfu. Low-bUDgeting and only paying for necessities will help by keeping us grounded and allow us to build a strong foundation based on trust and faith, not wallet size, FOR ShitCoin and its ecosystem. NOW LET’S EAT SHIT TOGETHER!

For now, as aforementioned, the marketing budget is relatively non-existent. but accumulating. almost all marketing done is on an individual basis by community members creating, shilling and providing value.
